QuoteVX.

Manufacturing quoting, from RFQ to ready.

Bring parts, pricing and people together. A focused workspace for manufacturing and job-shop teams, from the first drawing to a client-ready quote.

Structure every job

Assemblies, subassemblies, parts and buy-ins at any depth. Quantities and costs roll up automatically.

Price with context

Custom cost blocks, vendor treatments, historical estimates and fixed quote currency snapshots.

Keep your team aligned

Assignments, tags, due dates, ETAs, internal notifications and management visibility in one workspace.

Finish with branded PDFs

Keep RFQs with the quote. Complete the work and download item totals without internal cost blocks.

Capacity for your team

Monthly billing in USD. No setup fee. Core quoting features included in every plan.

Plan	Monthly price	Quotes / month	Users
Basic	$500	150	5
Standard	$1,000	300	15
Premium	$1,500	500	30

One-time quote packs

50 quotes / $175 | 100 quotes / $350 | 150 quotes / $525

Packs never expire. Buy with an active paid subscription; use remaining credits after cancellation. Monthly included quotes are used first. Packs do not add user seats.

Allowances apply across all company workspaces per UTC calendar month. Active users and pending invitations share the user allowance. Stripe shows the amount before payment confirmation.

Connected-vendor API prices and exchange rates currently use sample providers. Review prices before issuing a quote. Your team downloads PDFs and sends them to its customers.
